Overview

The V7 Professional Laptop Backback is the contemporary solution for on-the-go professionals or students.
Using durable denier nylon, the backpack is structured with a dedicated padded notebook section designed to fit up to 16" notebooks, ample organizational room featuring a workstation with a key clip, pen loops, accessory pockets and a business card holder, as well as an MP3 headphone port and water bottle pockets. Its sleek ergonomic design ensures top comfort and an attractive, modern style.
As commuters and travelers who frequently lug laptops and lots of other gear, it is no wonder more and more people are using backpacks to save their necks and shoulders. The V7 backpack is sleek and lightweight, and the wide, stretchy straps make the bag comfortable to wear.
Lots of compartments give you plenty of places to stash your laptop computer, files, mobile phone and other stuff like your computer accessories. An exceptionally functional and sturdy laptop backpack, the V7 style is very "sedate and professional." In basic black with gray polyester accents and classic lines, it will look right at home or in a conservative office environment. Re-enforced foam padding will keep your laptop quite safe from accidental bumps and drops.
Designed for comfort and storage, this backpack has a place for everything. The V7 backpack has all the key features everyone should consider in purchasing:

- Separate, padded laptop compartment fits most laptops with a 16-inch screen
- Main compartment for file storage includes soft organizational sleeves
- An organized workstation includes key clip, four pen loops, two netted accessory pockets, mobile phone pocket, business card holder and separate file sections. The V7 backpack features a MP3 headphone port as well as two elastic water bottle pockets.
- Ergonomically, the V7 backpack has padded shoulder straps and cushioned handles allowing for maximum comfort and weight distribution.
- Two side water-bottle pockets.

These bags are rugged enough to withstand the pokes and prods of office furniture, security conveyors, slinging into trunks, daily jostling, and even the adventures of "off-roading" when the great outdoors calls.

Specification

V7 Model #	CBP1-9E
